Pages to Choose From

Home, About Us, Services, Features, Booking, Maintenance Tips & Advice, Customer Dashboard / Account, Contact Us, Mobile App (optional), Testimonials / Reviews (optional), Blog / News (optional), Privacy Policy & Terms.

Personas & Customer Stories

Persona Name	Goals (top 3)	Frustrations	Scenario (story)	Success Criteria
Jack	• Estimated maintenance time • Engaging videos with large text • Personalized videos	Eye condition, he does not enjoy the videos because they are not personalized and also the texts are so small, he also want to know the estimated time to service the car.	1- As 18 years old with eye condition I want to know how long each service would take so that I can plan my day when I have the service day. 2- As 18 years old I want to see an engaging videos with large text so that I can see it clearly. 3- As 18 years old I want to see personalized videos about car maintenance tips.	The pages should comply with the user requirements so it should display personalized video with clear text and it should also show the estimated time to fix the car(service the car).

Tim	• Clear SMS text • AI assistant • Remote control	Old guy male dementia he does not like the current text in the SMS, and he forgets what and how to do things, so he wants AI assistant and also, he wants a remote-control access for example when he is trying to book something his children and log in as well and show him how to do it.	1- As an old guy with dementia, I want to see service reminders through SMS but with clear text so that I can understand and don't forget. 2- As an old guy with dementia, I want to have AI assistant to help me with booking services so that I know how to do it. 3- As an old guy I need the platform to allow remote control so my daughter can join me when I am booking the service.	The pages should have AI assistance, and the SMS text should be clear and on the home page there should be a section to invite people to help you.
Tom	• Fast service booking (5 minutes) • Interactive videos • Discount on services	He is a middle aged male, he gets bored quickly and he wants interactive video as well as	1- As a 45 years old male I want to be able to book my service in 5-minute withing the platform because I don't like to wait.	The pages should be easy to use and the videos should be interactive and there should be discount on some of the services.

		discounts because he wants to enjoy the service and also enjoy the videos.	2- As a 45 years old male I want to be able to get discounts on some of the services because then I would use the service more. 3- As a 45 years old male I want to be able to see interactive video when I need not something dry because I don't learn anything from it then.	

Page Design Planner

Page Name	Primary Persona	Customer Story	Page Goal	Core Tasks & CTAs	Components	Content Notes	Accessibility	Data & Privacy	Error States	Analytics	Success Measure
Home	Jack	Wants fast navigation, clear service durations, reviews, and engaging videos.	Build trust and direct users quickly to booking/services. Fill booking form, Submit, Sign in, Receive confirmation	Booking form, Sign Up/Login buttons, AI assistant prompt	Highlighting remote support and SMS confirmations	Screen reader-friendly, descriptive labels	Consent for Terms & Privacy, SMS opt-in/out	Login failure, booking not saved	Track bookings tied to accounts, SMS confirmations	Higher logged-in bookings, fewer errors
Booking	Tom	Wants fast booking/login and clear video tips.	Enable quick booking with minimal steps.	Fill booking form, Submit, Watch video tips	Booking form, Video tips section, Submit button	Highlight video advice alongside booking	Simple navigation, user-friendly colors	Consent for Terms & Privacy, SMS reminders	Video not loading, booking form errors	Track bookings plus video engagement	Higher booking completion, positive video feedback

Component Inventory

Navigation (header, footer), Cards & lists, Forms, Maps, Notifications, Logbook.

Visual Style Guide

Element	Decision	Notes
Brand Name	Autoserve Innovation	Used consistently across all pages and footer.
Navigation	Home, Services, Maintenance Tips, Support	Clear top-level navigation, short labels for easy scanning.
Tagline / Hero Text	“Fast and efficient fix” “Experience seamless car care...”	Concise, action-oriented, sets trust and efficiency tone.
Feature Highlights	Estimated maintenance time, Maintenance tips, Online booking	Each feature explained with short supporting text; icons recommended.
Customer Proof	73,000 yearly services, 200+ daily services, 4.8/5 app rating, 24/7 support	Used bold typography and icons for credibility.
Reviews	Short testimonials with star ratings	Keep reviws concise; mix positive and neutral for realism.
Quick Links	Services, Contact & Support, About Us, Online Booking, Mobile App	Footer navigation for easy access.
Contact Info	Address: 123 Banking Street, NY Phone: 1-800-BANKO-24 Email: support@banko.com	Standard footer placement; ensure clickable phone/email links.
Legal Links	Privacy Policy, Terms of Service, Cookie Policy, Accessibility	Always visible in footer; required for compliance.
Typography	Headings: Bold sans-serif Body: Clean sans-serif	Large, accessible text; consistent across sections.
Color Palette	Primary: Blue (trust) Secondary: Yellow (highlight) Neutral: Gray/white	Blue for CTAs, yellow for emphasis, gray for background.

Buttons/CTAs	Rounded, filled primary color, hover state lighter shade	Examples: “Book Online,” “Join Now,” “Contact Us.”
Imagery/Icons	Car, wrench, calendar, clock icons	Reinforce features visually; always paired with text.
Accessibility	WCAG 2.1 AA compliance	Large text, alt text, captions on videos, keyboard navigation.
Error States	Login failed, booking slot unavailable, reviews not loading	Clear, friendly messages with retry options.

Accessibility & Inclusive Design Checklist

- Keyboard navigation and visible focus states
- Sufficient colour contrast (WCAG AA)
- Clear labels and instructions
- Error messages explain fixes
- Alt text for images
- Privacy notices and data handling explained

Prototype & Test

Plan tasks for each persona, prototype pages in Miro, test with peers, iterate based on feedback.

Peer Review Checklist
